

Chioma Veronica Ezezim

Front-End Developer

✉ veronicaezezim@gmail.com ☎ 09073445627 📍 Lagos, Nigeria.

PROFILE

I'm a Front-End Developer with practical experience in creating responsive, user-friendly websites. I have a strong background in HTML, CSS, JavaScript, and TypeScript, and I take pride in designing with creativity and attention to detail. I'm comfortable working with modern frameworks like React.js and love using Tailwind CSS for clean, efficient styling. I also have experience with Test-Driven Development (TDD) through Jest, always aiming to build reliable and well-tested code. Above all, I'm passionate about creating smooth, engaging digital experiences that focus on users' needs and satisfaction.

PROFESSIONAL EXPERIENCE

Front-End Developer, *Infinion Technologies*

07/2024 – Present
V.I, Lagos,, Nigeria

- Collaborate closely with UI/UX designers to interpret and implement detailed user interface designs into responsive, interactive web applications.
- Consume and integrate APIs provided by the back-end team to ensure seamless data flow and dynamic content rendering.
- Utilize modern front-end technologies to build high-quality, user-friendly interfaces that align with project specifications and enhance user experience.
- Continuously collaborate with cross-functional teams to deliver a polished and fully functional product.
- Ensure code is optimized for performance, accessibility, and maintainability, adhering to best practices and team guidelines.

Open Source Contribution & Front-End Development, *Outreachy contributor (Creative Commons)*

10/2024
San Francisco,,
California, U.S.A

- Collaborated with the Creative Commons team to consolidate and standardize design across their websites, creating a comprehensive set of guidelines for new contributors.
- Proposed and implemented UX/UI improvements for various Creative Commons websites, leading to accepted features and enhancements across multiple GitHub repositories.
- Created and submitted pull requests (PRs) that were successfully integrated into live sites, improving site functionality and user experience.
- Suggested and contributed code improvements for better readability and adherence to established templates across the codebase.
- Assisted fellow contributors with setting up development environments, cloning repositories, and troubleshooting issues, fostering a collaborative and supportive open-source community.

EDUCATION
